ABOUT

I am an undergraduate student at University of Colombo pursuing a Bachelor of Information and Communication Technology (BICT) degree. I am passionate about software development and web technologies, and I enjoy building practical and user-friendly applications. I have knowledge of HTML, CSS, JavaScript, React, PHP, Python, SQL, and C programming.

I have completed several projects including a Library Management System, Clothing Shopping Website, and Movie Finder Application, which helped me improve my programming, problem-solving, and teamwork skills. I am eager to learn new technologies, gain industry experience, and grow as a software developer in the IT field.

EDUCATION

Bachelor of Information and Communication Technology Honours in Software Engineering Jun 2025 — Jun 2029
University Of Colombo • Faculty of Technology, University of Colombo, Mahenwatta, Pitipana, Homagama, Sri Lanka.

SKILLS

Technical

HTML CSS JavaScript React PHP SQL Python

Soft Skill

Library Management System

A web-based Library Management System developed using HTML, CSS, Bootstrap, PHP, JavaScript, and MySQL.

This project was created as a final group assignment for the BICT Degree Program – University of Colombo.

The system helps library staff manage books, members, borrow records, fines, and user authentication through a simple admin dashboard.
